Aireys Inlet UC is pleased to report a highly successful dinner with speaker CSIRO scientist, **Dr Kathy McInnes** speaking on "*Climate Change and our Coasts – what the science is saying*". A great crowd, including many people not connected with the church, enjoyed the presentation and had some great questions that broadened the discussion. Dr McInnes pulled no punches in her depiction of the future warming of the oceans, if we continue as a "business as usual" approach to our carbon emissions.

We were pleased to be able to provide a witness to the community of the care that Christians have for God's creation. Many thanks to those congregations that supported the event. Funds of \$2479.59 will be divided between the speaker's choice of recipient, the Climate Council and our choice, Uniting World for their work in Pacific countries suffering from the impact of climate change.
